Editor, Health Impact News

This week I was contacted by a long-time *Health Impact News* subscriber in India, Yohan Tengra, who is part of the *Awaken India Movement* website.

Mr. Tengra has spent 2 years researching just who controls the Public Health System in India, and their massive conflicts of interest.

I am happy to give exposure to this explosive report to our international audience, which documents how the rich and powerful in India have worked together with Bill Gates and other Globalists through Big Pharma to enslave the people of India through the Public Health Foundation of India.

India's Covid-19 Task Force & "Experts" Exposed : Conflicts of Interest in Our Public Health System

Written, Researched & Compiled by: Yohan Tengra
AwakenIndiaMovement.com

Introduction

Who is India's Anthony Fauci? The mainstream media does not even know the names of the members who sit in India's National task force, but in this article I, Yohan Tengra, have exposed not just the names of those who are sitting in this task force, but also how they are financially connected to the pharmaceutical industry and vaccine mafia.

This task force has been responsible for the aggressive push to lockdown, mandatory mask requirements, forced testing of asymptomatics, dropping ivermectin and hcq from the national protocol, suppressing vaccine adverse events, and a lot more!

Along with the task force, I have also exposed how India's prominent public health personalities, who regularly appear in the media and TV, like Srinath Reddy, NK Arora, VK Paul, Gagandeep Kang, Vijayraghavan, Balram Bhargava, Randeep Guleria, are connected to the Gates Foundation, Rockefeller Foundation, Wellcome Trust, USAID, the World Bank, and other aspects of the global deep state.

Other topics covered in this piece :
– How task force members get the science on Covid-19 totally wrong, which proves that their conflicts influence their recommendations
– India's illegal HPV vaccine trials, ICMRs role in it, and how a similar incident repeated with the Covaxin Phase 3 trials
– How Gates foundations baby PHFI gets funding from the vaccine mafia, and holds deep influence in controlling India's health policies
– How this research is the basis on which a legal notice has been sent to the Health Minister, calling for prosecution and removal of all the people who are exposed to have conflicts of interest
– When the accused have been confronted about conflicts of interest in the past, how have they responded?
– How the accused have lied on record about not having conflicts of interest

This piece is the culmination of my research into India's medical deep state that I've been conducting since the last 2 years. Journalists reading this, who regularly bring these cast of characters on to discuss the medical aspects of the covid-19 pandemic must confront them with hard questions and facts which are explored in this article.

Public Health Foundation of India (PHFI)

Former PM Manmohan Singh with the Founding Chairperson of PHFI, Rajat Gupta

PHFI, a public private partnership started by Ex Prime Minister Manmohan Singh, Rajat Gupta, Bill & Melinda Gates Foundation & Srinath Reddy, has received millions of dollars of funding from pharmaceutical companies, vaccine manufacturers, & dubious philanthropic organizations, which use philanthropy as a front to push hidden agendas which profit vested interests. It was started with initial funding of 65cr given by the Gates Foundation, and 65cr given by the Indian Government, along with a later grant of 35 crores.

This so called PPP has received funding over the years from the **Bill & Melinda Gates Foundation, Pfizer, Johnson & Johnson, Rockefeller Foundation, World Bank, PATH, Diamond Jubilee Trust of the Queen of England, USAID, Wellcome Trust, Abbott, Mckinsey, Eli Lily, Glaxosmithkline, Bayer, NIH, & Google!**

https://phfi.org/about/financial-information/
Check under "Intimation of Quarterly Receipt of Foreign Contributions" Section

Despite receiving nearly 100 crores from taxpayer money, & having top government bureaucrats sitting on the PHFI governing board, PHFI did not submit itself to the RTI Act, 2005 for the first 6 years of its existence. When it was taken up to the Central Information Commission by a person named Kishan Lal **in 2012, the CIC Chief Shailesh Gandhi ruled that it was a public authority under the RTI Act**, and hence it must submit itself to the RTI act.

https://ciconline.nic.in/cic_decisions/CIC_SG_C_2011_001273_17356_M_76524.pdf

When Journalist Kapil Bajaj filed an RTI to know the composition of the PHFI board when it was created (2006), the President of PHFI, **Srinath Reddy, actually sent him an evidently forged document, which is a punishable offense under the RTI Act.** The document is dated 2006, but the designations of some of the members on the board are clearly written many years after 2006. You can find a copy of this document here :

https://drive.google.com/file/d/1bRHsJbkS4XwEifnMiYtvDBZ4IBBJSC8a/view?usp=sharing

In the year 2013-2014, **PHFI lost 82 crores to a bank FD scam**, which included the taxpayer money it received from the Government of India, and the organization also found itself ensnared in another controversy when a complaint was made against it to the CBI for lobbying and conflict of interest in getting one of its courses accredited from Sree Chitra Tirunal Institute. Despite having lost so much of our taxpayer money, it has still not submitted itself to a CAG audit, and did not take action against those under whos watch the funds were embezzled.

A summary of this can be found in an article written by journalist Kapil Bajaj here – https://dragada.com/kbforyou/2018/02/17/phfis-rs-100-crore-scam-and-ensnaring-of-sree-chitra-tirunal-institute-in-a-corrupt-deal-impostors-club-hurtles-from-fraud-to-fraud-updated/

PHFI has claimed since inception that top Government bureaucrats have sat on its board, including Secretaries of the Ministry of Health and Family Welfare, Director Generals of ICMR, and Director General of Health Services, MOHFW. However, **whenever RTI's have been sent by activists to these Government Departments, they always mention that no permission or order has been issued to allow these government servants to sit on the PHFI board.**

It is not clear as to whether Government bureaucrats sitting in the PHFI board are getting paid by PHFI (RTI's have been filed to uncover this), but **the President, Srinath Reddy, who used to work in AIIMS before he became PHFI president, is reportedly drawing in a salary of 1 crore per annum from the PHFI!** If it is revealed in the future that Government bureaucrats on the PHFI board are getting salaries from the funders of PHFI (i.e. pharmaceutical companies, vaccine manufacturers, & fraud philanthropists like Gates, Rockefellers,etc) then that would amount to a serious conflict of interest of such government representatives.

PHFI was mainly created with the motive to start public health universities in India, create a public health cadre in India, and suggest health related policies to the Government. PHFI has created many Indian Institutes of Public Health (IIPH's) all over the country. Land from many states has been allotted to PHFI and grants from various state governments have also been given, but after PHFI lost so much money to the FD scam, it has not been able to build many of the universities that it was originally supposed to, and a lot of its universities are currently running on rented premises.

Many government members as well as heads of billionaire business houses, fake philanthropic bodies & pharmaceutical companies have sat on the PHFI Governing Body in the past, and some continue to sit on the Governing body of PHFI. Those who are sitting in the PHFI board as of March 2020 have been highlighted below in bold letters. Members who are sitting on the PHFI Governing Body as well as Executive committee for the year ending March 2021 have still not been published on the website, despite many months having passed. Illegal HPV Vaccine Trials – History Repeats?

Many years ago, a parliamentary standing committee in India produced a scathing report regarding illegal trials which were conducted by the NGO PATH, that were funded by the Gates Foundation. There were serious lapses in the trial which amounted to a gross violation of the human rights of the subjects involved.

Back then, it accused the ICMR of gross misconduct and conflict of interest. Here is an excerpt from the report :

"**It was unwise on the part of ICMR to go in the PPP mode with PATH, as such an involvement gives rise to grave Conflict of Interest. The Committee takes a serious view of the role of ICMR in the entire episode and is constrained to observe that ICMR should have been more responsible in the matter. The Committee strongly recommends that the Ministry may review the activities of ICMR functionaries involved in PATH project.**

The Committee from its examination has found that DHR/ICMR have completely failed to perform their mandated role and responsibility as the apex body for medical research in the Country. Rather, in their over-enthusiasm to act as a willing facilitator to the machinations of PATH they have even transgressed into the domain of other bodies/ agencies which deserves the strongest condemnation and strictest action against them"

http://164.100.47.5/newcommittee/reports/EnglishCommittees/Committee%20on%20Health%20and%20Family%20Welfare/72.pdf

https://www.downtoearth.org.in/news/hpv-vaccine-deaths-parliament-panel-indicts-path-health-officials-42074

The Supreme Court of India also ruled in 2018 that this parliamentary committee report could be used as evidence in court.

https://www.hindustantimes.com/india-news/parliamentary-panel-reports-admissible-in-courts-says-cji-misra-led-bench/story-SsgaGNIOyHK6UxWHPfyfBL.html

Years later, today PATH and the Gates Foundation are still freely operating in the country, and going around funding various public and private projects. No action was taken against the ICMR employees who got into a PPP with PATH, as recommended by the standing committee.

What the standing committee failed to notice at the time is that the ICMR and other Government departments, got into a so called PPP with the pharmaceutical companies, industrialists & fraudulent philanthropic organizations that use philanthrophy as a front to push their hidden agendas. This arrangement is known as PHFI.

Back then, the conflict of interest of ICMR was only limited to the trials that were being conducted. Today, the conflict of interest of the ICMR is enormous, as ICMR Director Balaram Bhargava, and past Directors such as Soumya Swaminathan and Vishwa Mohan Katoch sat on the board of PHFI along with leaders from pharmaceutical companies, the Gates Foundation, industrialists, etc. **On behalf of these vested interests, the ICMR is controlling the entire response to the Covid-19 pandemic today, as it setup the task force which directly recommends the Central Government about what measures to take in response to the pandemic.**

This issue has come up in the past as well, and was reported in the Indian mainstream media. You can read up on that here :

https://economictimes.indiatimes.com/industry/healthcare/biotech/healthcare/controversial-vaccine-studies-why-is-bill-melinda-gates-foundation-under-fire-from-critics-in-india/articleshow/41280050.cms?from=mdr

The ICMR also got into a deal with Bharat Biotech, and gets 5% royalty on the sale of the vaccine. The ICMR has inked other deals along with the Gates Foundation as well. **These conflicts of interest need to be cut-off, as they are not just influencing the outcome of a clinical trial, but the fine detail of all 135 crore peoples lives today! ICMR guidelines are followed like a religious book all over our country today.**

Years later, it seems like history repeats! This time with the phase 3 trial of Covaxin in Bhopal.

Multiple news reports have also highlighted the irregularities in the clinical trial phase of the Covaxin in India, particularly in Bhopal. In an article titled "India's COVID-19 Vaccine Trial Participants Claim They Were Misled" published on an online portal IndiaSpend on 12.02.2021, it is reported that **individuals were lured to participate in the trial after paying Rs. 750. Death of one person who took the vaccine was also reported. The persons who took the vaccine said that they were not informed that they were part of the clinical trial.** The report states asunder:

"A truck came to this locality in December and announced on a loudspeaker that anyone who wanted the COVID-19 vaccine and wanted Rs 750 for taking the vaccine, could go to the nearby People's University Hospital and take it. I needed the money," said Parihar. Nearly a dozen people interviewed by IndiaSpend in Gareeb Nagar and Oriya Basti in north Bhopal recounted this same sequence of events."

"After reports of irregularities in the trials, this reporter visited Bhopal to investigate the allegations made by people living in low-income areas of the city. **Many said they did not know they were part of a clinical trial and instead believed they had been given the actual COVID-19 vaccine**. For most, the money was the reason they had agreed to take the jab. **Many of them said they were illiterate and could not read the forms they had signed. Residents also alleged that they had not been informed about the potential side-effects, or that they could be compensated for serious fallouts such as death or disability.** Although Bharat Biotech has issued a press statement claiming that all reported adverse events have been duly recorded, **many in the trial did not have mobile phones on which their health conditions could be inquired about. They said they had not been contacted by any other means, either."**

https://www.indiaspend.com/covid-19/indias-covid-19-vaccine-trial-participants-claim-they-were-misled-713061

It seems like ICMR has a habit of working with parties that love to break the rules of clinical trials in India and hence violate the rights of the participants who are involved. The parliamentary committee called for strict action against ICMR more than a decade ago, and since no action was taken then, this incident has repeated today. When will justice be served?

Famous Names in India's Public Health Space

There are other people who are not directly working for PHFI, and don't sit in the main ICMR Covid-19 task force either, but are influencing Government policies & media messaging on Covid 19 in a big way, and are connected to Bill Gates, Rockefeller Foundation, vaccine & pharmaceutical companies, etc. These include :

1) Dr. Narendra Kumar Arora

Canadian physician Dr. Andrew Moulden provided clear scientific evidence to prove that every dose of vaccine given to a child or an adult produces harm. The truth that he uncovered was rejected by the conventional medical system and the pharmaceutical industry. Nevertheless, his warning and his message to America remains as a solid legacy of the man who stood up against big pharma and their program to vaccinate every person on the Earth.

Dr. Moulden died unexpectedly in November of 2013 at age 49.

Because of the strong opposition from big pharma concerning Dr. Moulden's research, we became concerned that the name of this brilliant researcher and his life's work had nearly been deleted from the internet. His reputation was being disparaged, and his message of warning and hope was being distorted and buried without a tombstone. This book summarizes his teaching and is a must-read for everyone who wants to learn the "other-side" of the vaccine debate that the mainstream media routinely censors.
